General information

Add-on components with TTG (Technical Approval) do not necessitate registration: rear spoiler, fender flares.

According to the TTG (ABE): Component Type Approval (TTG) is the successor to the ABE. No new ABEs can be applied for since June 2024, as the TTG (Component Type Approval) has replaced it. Please do not confuse the TTG with the component certificate; the TTG is equivalent to the ABE.

Approved tire size for the rims: 235/45 R19.

No technical data sheet (TTG) is available. However, a strength certificate/parts certificate is provided to facilitate registration. Consequently, usage necessitates individual approval in accordance with §21 of the German Road Traffic Act (StVZO) by an accredited testing organization such as TÜV, DEKRA, KÜS, or GTÜ.

The remaining sections do not necessitate registration.
